

# ABDOMINAL EXAMINATION TRAINER

An anatomically accurate adult torso, used to teach and practise the palpation, auscultation and percussion elements of abdominal or gastrointestinal (GI) examination.

With interchangeable organs of varying sizes, and an integral MP3 player providing realistic sounds, the trainer provides the ability to recognise and differentiate a range of abnormal organs and pathologies.

Discover the underlying anatomy using our free Augmented Reality Training (ART) app, to build understanding of anatomical structures and contextualise procedural practice with Limbs & Things models.

## SKILLS

- Familiarity with the abdominal regions and underlying anatomy
- Practice in abdominal palpation, auscultation and percussion
- Ability to differentiate normal from abnormal anatomy
- Identification of ascites, specifically shifting dullness and fluid thrill
- Identification of gaseous distension and bowel obstruction
- Ballottement of kidneys
- Professional-to-patient communication
- Increased understanding of internal anatomy and pathology presentation with Augmented Reality Training (ART)

This model includes Augmented Reality Training (ART).

## QUALITIES

### REALISM

- Organs feel realistic on palpation and respond appropriately to percussion
- Lifelike quality of abdominal skin accommodates stretching for gaseous distension and ascites simulation
- Realistic ballottement of enlarged kidney

### VERSATILITY

- Abdominal skin is simple to remove, allowing quick and easy changeover of organs
- Suitable for both bench top use and hybrid use with Simulated Patient
- Model can be rolled onto side for examination of ascites and shifting dullness

### KEY FEATURES

- Interchangeable organs and pathologies of varying sizes can be quickly and easily inserted into the abdomen
- Trainer or Simulated Patient can vary respiratory movement of liver and spleen by the turn of a wheel
- Integral amplifier and surface mounted MP3 player allow training in auscultation of normal and high-pitched or obstructed bowel sounds, renal and aortic bruits - in variable locations
- Volume of bowel sounds can be adjusted and MP3 player allows for additional sounds to be loaded
- Distension set allows for the following:
  - Realistic checking for ascites using percussion, shifting dullness or fluid thrill technique
  - Simulation of bowel obstruction on percussion and auscultation
- Pulse bulb allows simulation of normal and aneurysmal aortic pulse
- Add context with augmented reality visuals of internal organs

### SAFETY

- Latex free

### CLEANING & CARE

- Skin surface is washable using soap and water

## ANATOMY

- Torso featuring abdomen, pelvis and lower part of thorax
- Bony landmarks include ribs, costal margin, xiphisternum, pubic crest and anterior superior iliac spines
- 3 Livers: slightly enlarged, enlarged with smooth edge and enlarged with irregular edge
- 2 Spleens: slightly enlarged and markedly enlarged
- 2 Enlarged Kidneys
- Distended Bladder
- 2 Aortas: normal and aneurysmal
- Set of 6 Abdominal Pathologies includes:
  - 4 Smooth masses: 2 sizes, each with hard and soft version
  - 2 Irregular hard masses
- Distension Set includes:
  - Ascites bag
  - Gaseous distension bag, pump and foam insert
- Simplified representation of lower thoracic & lumbar spine
- Explore male and female internal anatomy and the impact of varying pathologies with Augmented Reality Training (ART)

## WHAT'S INCLUDED

60000

60054

Abdominal Examination Base Unit  
Abdominal Examination Skin  
Abdominal Examination Rectus Bag  
Abdominal Examination Organ Locator  
Abdominal Wall  
Abdominal Examination Livers (Set of 3)  
Abdominal Examination Spleens (Set of 2)  
Abdominal Examination Kidneys (x2)  
Abdominal Examination Bladder  
Abdominal Examination Pathologies (Set of 6)  
Abdominal Examination Aortas (Set of 2)  
Abdominal Examination - Distension Set  
International 5V DC Power Supply  
AA Batteries (x4)  
Carry case (x2)  
Art Mat

## SET-UP EXAMPLES FOR SCENARIOS

ACUTE URINARY RETENTION - BLADDER

SLIGHTLY ENLARGED LIVER

OVARIAN CYST - SMOOTH SOFT MASS

ENLARGED KIDNEY

CARCINOMA ON MASS IN LEFT ILIAC FOSSA

CARCINOMA WITH LIVER METASTASIS

LYMPHOMA

AORTIC ANEURYSM

TRAINING

**NEW**

**Introducing Augmented Reality Training (ART) via our new app.**  
Dive under the skin and bring learning to life.

### Interactive Anatomy

SCAN ME

### Download the app for free

Free to download, learners can explore the anatomy of some of our core training models in interactive 3D. Visualise key anatomical structures with 360° rotation and detailed labels to help build understanding ahead of classroom learning or during revision.

### Augmented Reality

### Use with our compatible trainers

For classroom teaching, combine the app and mat to add context for the learner through augmented reality. They'll be able to associate underlying anatomy with the trainer, bringing increased visual and spatial understanding during procedural practise.
